

# Steel Look Aluminum Windows

## Casement T225

### The true steel alternative option

Our Steel Look casement windows retain many of the features and aesthetics of the old original steel windows. Narrow 2 1/4" frame depth, the beveled glass stop and 3/4" SDL beveled muntin that simulate the look of original "putty" glazed windows combine to produce a unique offering unmatched in the industry. We offer as casements, awnings, hoppers and fixed configurations. Windows can be mullered to create long runs of fixed glazing which transition nicely into our T-225 French Doors effortlessly.

### Features

Size	Casement sash up to 3' wide, 6' high
Thermally Broken	Sashes and frames made with in-house Isobar technology for improved energy performance, NFRC Certified. Fixed units can be expanded simply by utilizing a wider Isobar to increase the glass thickness from 1" O.A. to 1 1/4" O.A.
High Performance Glass	1" Dual-glazed, Low-E glass
Spacer	High performance superspacer, Matte black Finish, Stainless steel spacer available
Frame Depth	2 1/4"
Hardware	
Operation/ Configuration	Crank-out or push-out operation options; available as single, double, triple, or multiple operating sashes; matching transoms available

### Muntins

Use muntins to create interest or fit particular architectural designs. Arcadia Custom products can be ordered with custom grid patterns in either SDL or TDL options. Additional grid patterns are available.
